**36 Convertible**

# Part BEAUTY

There are many boats that are beautiful. And many that are beasts. A few provide some combination of both.

Only Hatteras pours in the generous measures of beauty and brawn that you'll find in the 36 Convertible. And no wonder. It's an original recipe dating back more than 20 years.

And every year since, the recipe and its ingredients have gotten better and better.

Consider the brawn portion of our 36.

The hull is incredibly strong. Like every Hatteras hull, the 36's is one-piece molded fiberglass. Above the waterline, the fiberglass is cored for added stiffness. Below the waterline, it's solid fiberglass.

Additional strength and stiffness is provided by means of a stringer system unique to Hatteras. Made of fiberglass and aluminum, it runs athwartships as well as fore and aft in a waffle-like pattern.

Complementing the strength of the 36's hull is its design—constant deadrise, modified-vee with an exceptionally deep forefoot.

So the 36 gets on plane quickly, is stable in open water and knifes through head seas.

That adds up to a hull in which you have greater confidence while running, trolling or at the dock, and in which you have greater interior space as well.

To send the 36 skimming, 3 power combinations are available: two choices of diesels, one of gasoline engines.

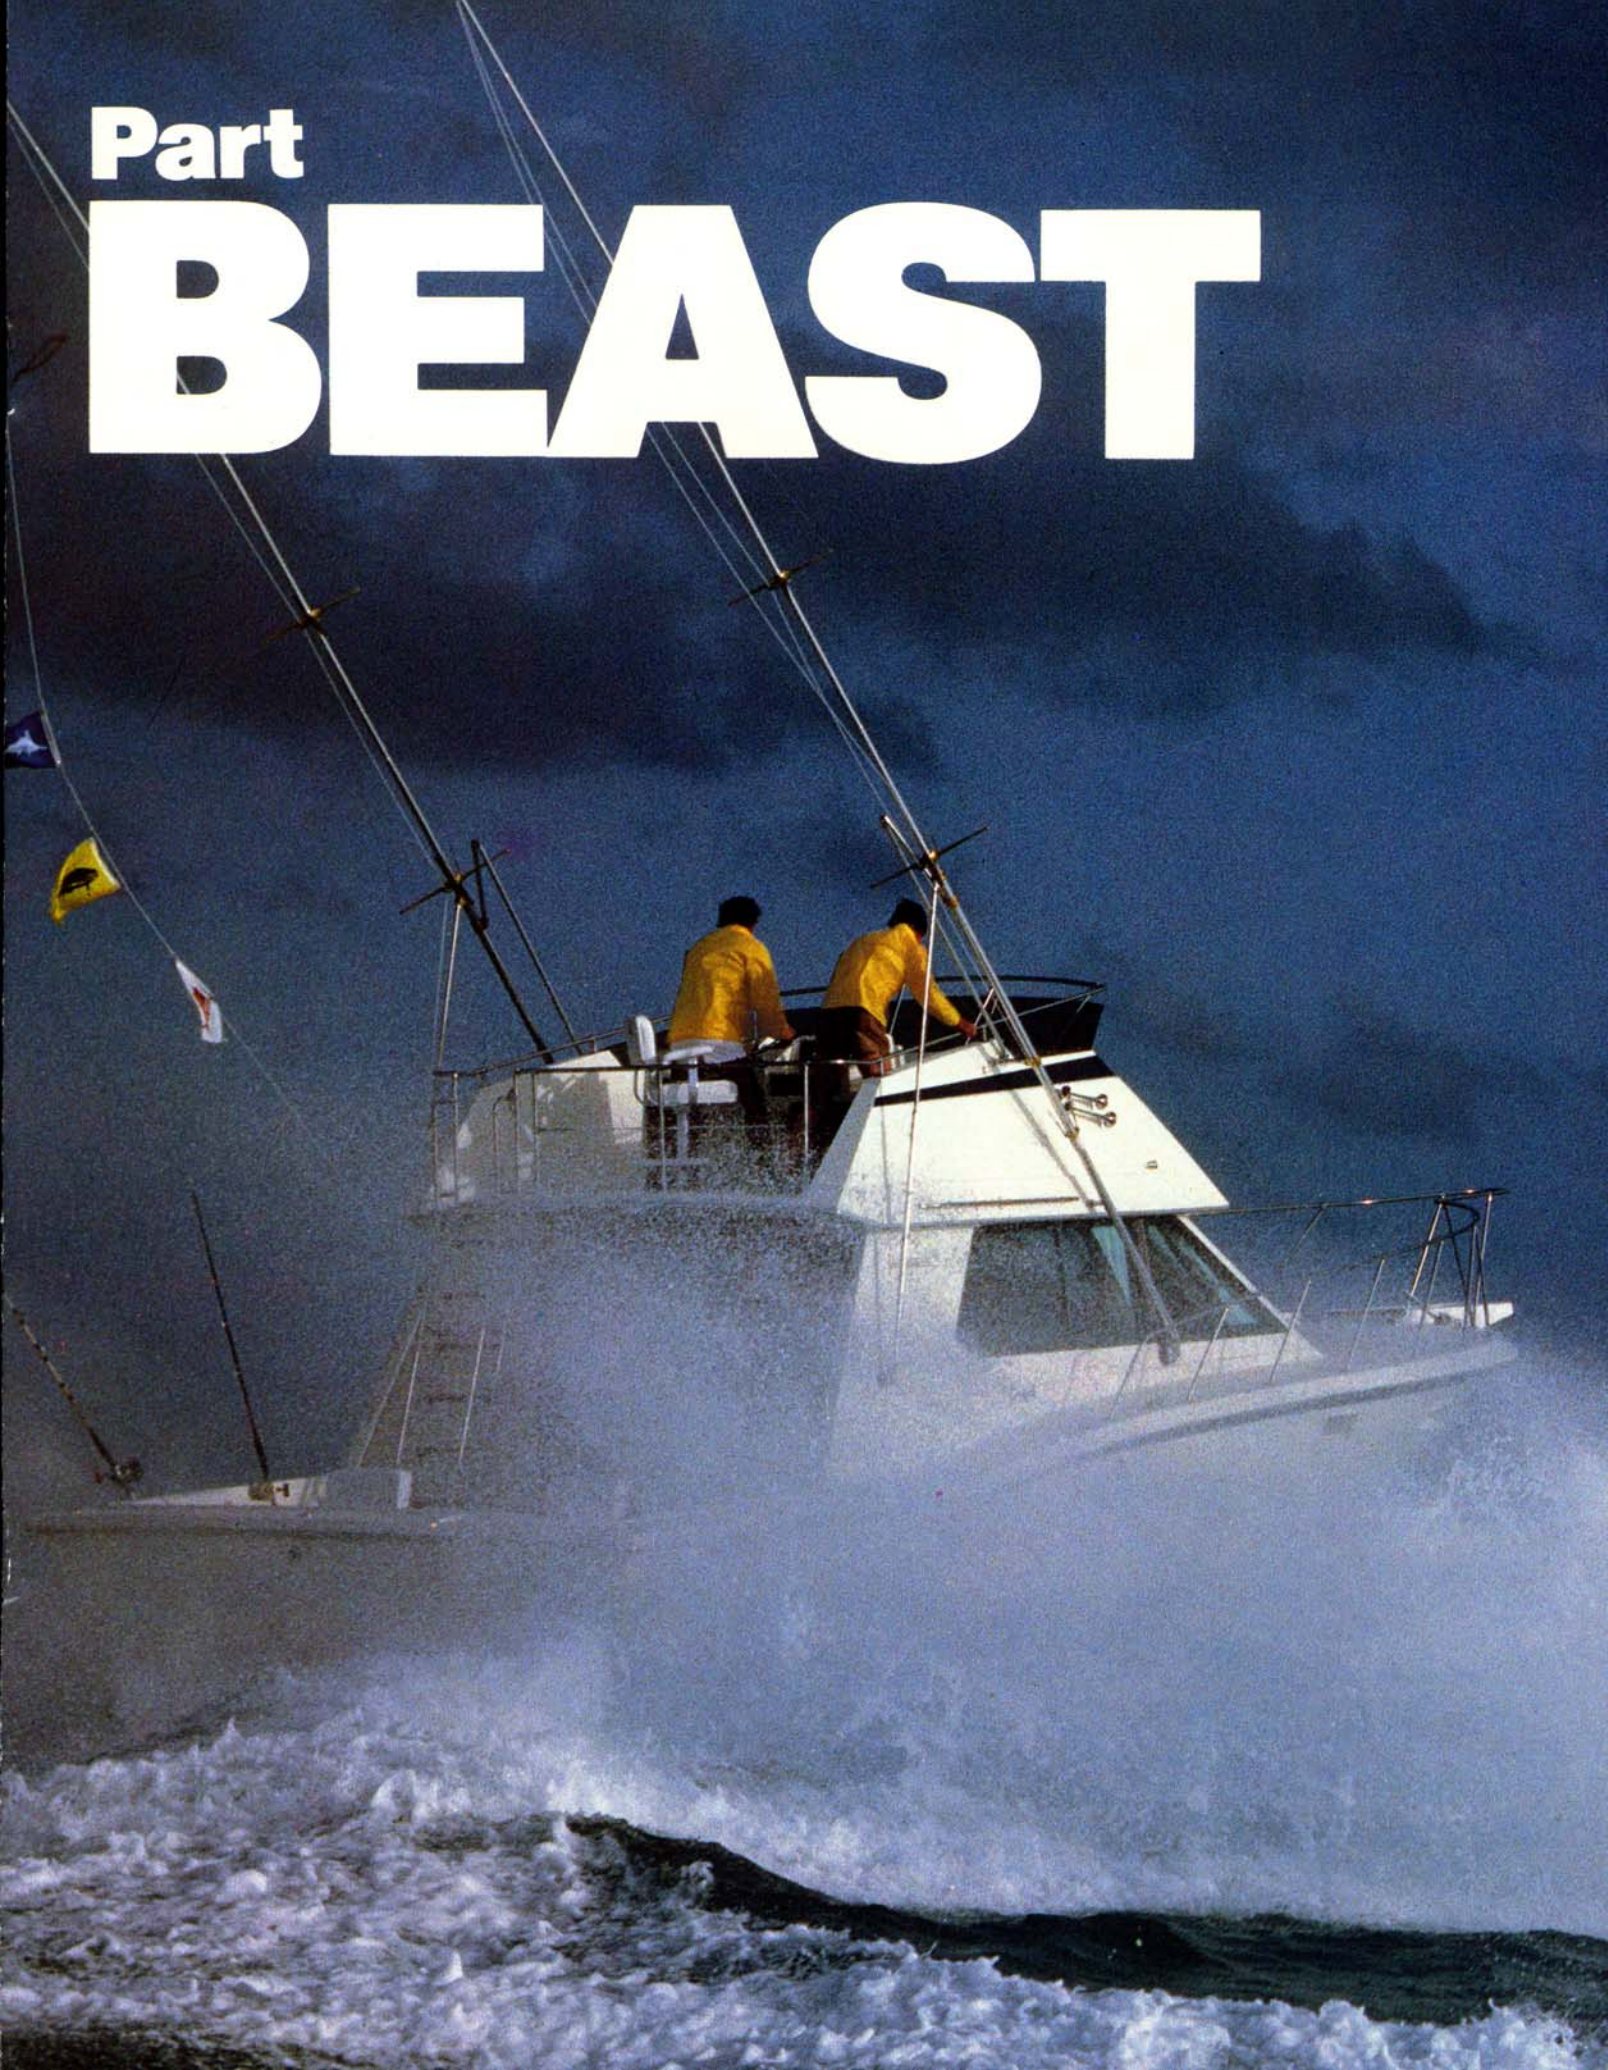

The flying bridge is roomy. Its control station has all necessary switches and dimmable lighted instruments, helm seat, room for what we know is today's normal complement of electronics. Forward is lounge seating for guests plus excellent storage.

Our experience precisely places the helm seat. So you'll enjoy excellent visibility . . . aft into the cockpit and forward for even close maneuvering.

**Part**

# **BEAST**

Our 20 years of refining the recipe for Hatteras sport fishing convertibles also works wonders in the cockpit area. For one thing, it's wide. Especially for a 36 footer. And that feature is followed by a long list of Hatteras "musts."

The all-fiberglass cockpit includes: self-bailing transom gate, non-skid deck, lazarette storage, engine air intakes under cockpit coaming to help provide dry air, sliding door to the salon, teak and stainless steel ladder to the flying bridge.

Also available for the cockpit area: removable lazarette fish well, top-loading bait freezer, bait and tackle center and cockpit control station.

That's an overview of the brawn in the 36. Your Hatteras dealer can provide you with all the details, of course.

Consider now the beauty in our 36 by taking a photographic tour of the interior. The standard salon arrangement—as well as the optional salon/galley arrangement—are replete with the luxury that is traditional with Hatteras.

Fine panelling and cabinetry throughout. The wood is rare wood, rich in warm, natural color. And hand-fitted, hand-finished. Then sealed for easy maintenance. Plush, deep carpeting—specially selected for the rigors of sea wear. Tinted safety glass windshield and sliding side windows. Also available is an AM/FM stereo cassette tape player.

**Top:**

Salon looking forward to efficient U-shaped lower galley.

**Bottom Left:**

Salon looking aft. AM/FM stereo cassette player available.

**Bottom Center:**

Bow stateroom features full-length vee berths with storage under, lighted hanging locker, overhead ventilating hatch and carpeting throughout.

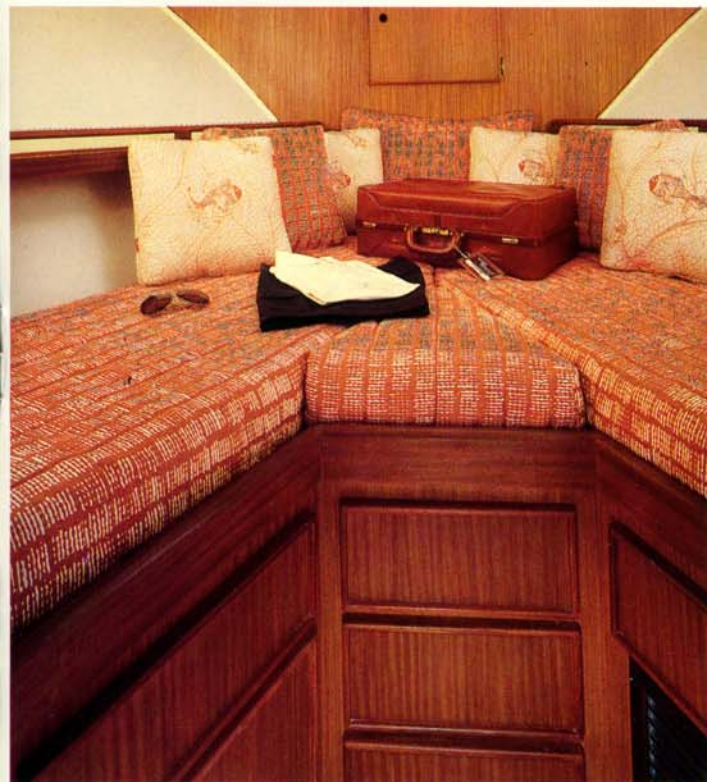

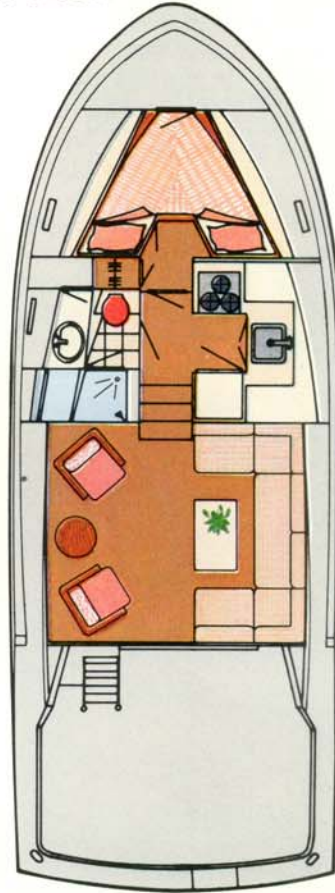

**Bottom Right:**

U-shaped galley with excellent storage.

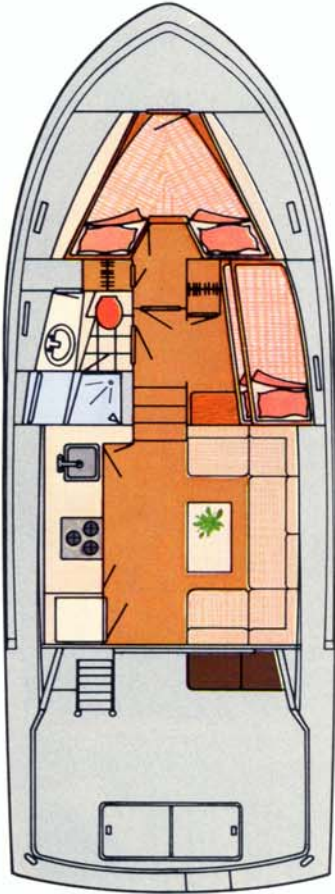

STANDARD LOWER GALLEY ARRANGEMENT features full-sized salon, lower level galley, bow stateroom.

**OPTIONAL UPPER GALLEY ARRANGEMENT** features salon and upper galley, double stateroom at lower level.

**Top:**

Salon/upper galley arrangement looking forward.

**Bottom Left:**

Looking aft in salon/upper galley arrangement. Glass-paneled door slides open and out of the way.

**Bottom Center:**

Full sized head.

**Bottom Right:**

Starboard stateroom with upper and lower berths, drawer storage beneath, built in nightstand with storage and hanging locker.

In addition to being a beautiful looking area, it will work beautifully with furnishings you select. And *that* our decorating staff knows from experience.

The galley (optional salon/galley shown here) is complete. Three-burner range, oven with rotisserie, AC/DC upright refrigerator/freezer, stainless steel sinks, glass storage rack. Plus plenty of additional dish and storage lockers.

Not only has our experience shown us the need of making available a choice of galley locations, it has also indicated to us the need for offering a two stateroom as well as a one stateroom arrangement.

Whichever is your choice, you'll find it comfortable. Each stateroom has two long, wide berths. And good drawer space, a lighted hanging locker approaching closet proportions, full-length mirror in a rare wood frame. Plus deep, sound-hushing carpeting.

The head is conveniently located near the salon. Included are a stand-up stall shower with seating space and door, large medicine cabinet with mirror, electric toilet, hot and cold water, vitreous china washbasin, good storage for linens, ventilating portlight with draperies. And vinyl headliner, floor and wall covering well suited to the bathroom environment.

Our years of experience with off-shore boats and their owners have resulted in exceptional components and systems being made standard on Hatteras boats.

On the 36 Convertible, those items include: Hatteras master electrical panels for easy comprehension and handling of 120V AC and 12V DC electrical systems, automatic battery charger, CO<sup>2</sup> fire extinguishing system, Hatteras Systems Monitor with audible and visual warning for drive oil temperature (diesel power only), engine water temperature and oil pressure, exhaust temperature and discharge of the automatic engine room fire extinguishing system.

So if you're looking for a boat with just the right blend of beast and beauty, look no further than your Hatteras dealer.

He'll be pleased to tell you more about our 36 Convertible and the more than 20 years of experience that we've put into it.
