

EVERYTHING YOU NEED TO KNOW ABOUT HATTERAS ...IN 32 FEET.

If you've never owned a Hatteras before, there's one thing we'd like you to know now:

Our 32 Flybridge Fisherman has more to do with the measure of the boat-builder than it does with the length of the boat.

Hatteras experience and expertise; attention to detail almost to the point of being finicky; insistence on excellence even if it's not readily noticed... they're all standard equipment.

A quarter of a century of experience makes this 32-footer live up to the meaning of "crafted by the hands at Hatteras."

To begin, the all-fiberglass, modified-vee hull was created to Hatteras specifications, to plane quickly and provide the most com-

fortable ride. The sharp entry and flared bow make for a softer ride in swells and chop, and deflect spray down and away.

And for top speed, the hull shape, structure and weight were "matched" with the engines (twin gas or twin diesel) early in the design stage, to optimize power output.

In production, the hull is completely gel-coated our own careful way, to resist the ravages of time and tempest. It's strengthened by an all-fiberglass stringer system. And as on every Hatteras, each layer of fiberglass is laid completely by hand.

Our engineering staff is the most extensive in the industry. And their industry shows throughout.

The Hatteras electrical system incorporates sophisticated technologies, to make it the standard by which others are judged. For example, the transformer-connected shoreline and ground-fault protection are no less advanced on a Hatteras 32 than on a

Hatteras 77 Custom Yacht.

**FROM OUR FAMILY
TO YOURS: PURE ENJOYMENT,
PURE HATTERAS.**

Every step of the way, the Hatteras difference makes the difference.

The selection of woods, exquisitely matched, fitted and finished by fine furniture craftsmen.

The nuances of lighting, to enhance the feeling of spaciousness. The innovative use of laminates and core materials, the result of exhaustive Hatteras R and D.

Even the engine spaces, engineered for easier serviceability. They're all reflections of the Hatteras passion to be better.

IT WORKS HARD TO LET YOU PLAY HARD.

For fishing party or just plain party, the Hatteras art of accomplishment shines through.

The cockpit is large enough to hold a fighting chair; it's self-bailing and has an all-fiberglass sole with non-skid surface. There's also room to put a flushdeck fish box, and chest, rods and gear.

The flybridge is uncommonly large, with plenty of built-in seating forward of the console.

At the same time, your family and friends will still find soft, sound-dampening headlining and carpeting. Beautiful sea-going fabrics and pleasing colors. And in the Hatteras tradition, a sense of spaciousness with *plenty* of headroom.

The galley is skillfully designed to meet the needs of a hungry family or a team on a run to the deep. The dinette converts to a double berth. The bow stateroom is carpeted and has wide, 6'6" long berths and ample storage.

You probably never expected this much from a 32. But it wouldn't be a Hatteras without it.

IT ALL ADDS UP TO 100% HATTERAS.

Engineered for performance, designed for both family liveability and fishability, crafted in Hatteras

tradition... the Hatteras 32 Flybridge Fisherman is born to be enjoyed, backed by Hatteras after-the-sale service and bound to be worth more now and when you're ready to sell or trade.

That's the value of Hatteras.

For more information on the 32 Flybridge or Sport Fisherman, write us. For a portfolio of all the fine Hatteras yachts, from 32 to 77 feet, send \$5.00 to: Hatteras Yachts, Department JJ75, P.O. Box 2690, High Point, North Carolina 27261.

In addition to the 32 Flybridge, there's also a 32 Sport Fisherman: same Hatteras quality in a tournament-caliber hunter.
