## 32 Sport Fisherman

# IT'S A HATTERAS THRO

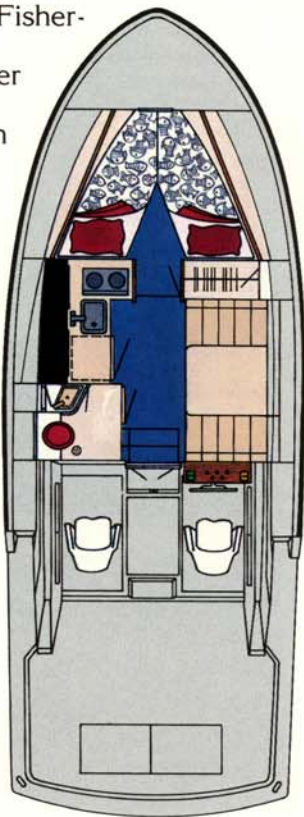

## AND THERE'S MORE.

Do you want more? Most experienced fishermen do.

The Hatteras 32 Sport Fisherman gives you more.

Seacocks on underwater thru-hull fittings. Complete bonding for corrosion control. Fiberglass tanks for durability. Hatteras Systems Monitor which senses four crucial functions on each engine/drive train, plus the discharge of the automatic engine area fire extinguisher system. Independent banks of 12V DC batteries with paralleling system. Fresh water cooling for main engines and optional generator. Fresh water pressure system with water heater.

The list of standard equipment is very long with the Hatteras 32 Sport Fisherman, as it is with every Hatteras. All designed to provide

offshore comfort and performance trip after trip, year after year.

## ROUGH? SHE'S READY.

With all this care and performance and strength put into the 32, there can be no doubt as to its preparedness and purpose.

It's ready for fishing offshore. Hard, tournament-type fishing. Or fishing with a few friends. For a few hours. Or a few days.

Take the helm and you'll sense its readiness. And because of it, you'll feel more confident . . . whether on wide open water or around the marina. You'll also feel completely in command. Because the 32 Sport Fisherman gives you the tools for it.

Unobstructed vision forward and aft, a complete control console of instruments and switches, twin throttle and clutch controls, hydraulic steering and stainless steel wheel, sturdy safety glass wrap-around windshield with a ventilating center section.

There are even storage bins ready to house a good selection of electronics.

Your fishing party will also find its needs met by the Hatteras 32. A cockpit large enough to hold a fighting chair, storage and tackle boxes, a good supply of gear plus . . . the fishing party itself. The cockpit is self-bailing and has a fiberglass sole with non-skid surface. For their catch, a large fish box is available. It is flush mounted in the sole.

Fish aren't the only things you can catch on the Hatteras 32.

## CATCH WHAT'S HAPPENING BELOW DECK.

Step into the cabin and catch any of the following.

The head. It's

# ROUGH AND THROUGH.

complete with electric toilet, sink, shower with curtain, medicine cabinet, mirror and linen storage locker.

The galley: ac/dc refrigerator and freezer, stainless steel sink, 2 burner stove, loads of storage lockers and a space for an optional microwave oven. Seat your guests at a dinette that has storage under, and later converts to a double berth.

The bow stateroom. It's carpeted; has wide, 6'6" long vee berths; lots of storage drawers and a hanging locker.

And catch the luxury that's traditional with Hatteras; those touches that are now expected by the kings and charter boat captains, the wealthy and the seawise who own Hatteras boats.

The hand-fitted, hand-finished rare wood. The soft, sound-hushing headlining and carpeting. The beautiful fabrics and pleasing colors.

You may even be able to catch the look of amazement in your guests' eyes when they realize that while

you have all these comforts, the cabin still has a spacious feeling.

## AN INVESTMENT WITH BUILT-IN PROTECTION.

Now, of course, all that goes into and comes with a boat from Hatteras should give you pleasure every day you own it.

But all of those features and components will also protect you when you're ready to sell it. Hatteras boats bring gratifying resale prices, year after year.

So see your Hatteras dealer soon. He'll be pleased to take all the time you want to explore the 32 Sport Fisherman.

You'll see that it's spirited, rugged and roomy. And, on top of that, it's what experienced offshore fishermen look for in a boat . . . Hatteras quality.

Through and through.

---

# THE 32 SPORT FISHERMAN. SPIRITED. RUGGED. ROOMY.

---

For over 20 years, it's been possible to describe the hundreds of things experienced fishermen look for in an offshore fishing boat by saying only one word.

Hatteras.

Look at our 32 Sport Fisherman and you can easily see why.

Everything is designed and built from the experience gained as the leading builder of high quality offshore fishing boats.

## **MATCHING MAKES IT MATCHLESS.**

The hull shape of the 32 Sport Fisherman, designed by Jim Wynne to Hatteras' demanding specifications, produces quick planing, flat running and excellent stability.

Its sharp entry and flared bow make for a softer ride in swells and chop . . . as well as deflect spray down and away.

And as for tracking, the 32 is true. The skeg design is carefully chosen to provide true tracking in turns and quartering seas, yet does not produce speed-reducing drag.

For the ruggedness needed for enjoyable offshore fishing, Hatteras backs up its tough hull with an all fiberglass stringer system of great strength.

It gives added stiffness to the cored fiberglass hull and spreads the torque and weight loads of the engines and gears.

To produce top speeds, the hull and engines (twin gas or twin diesel) are "matched" at design stage. This means that the hull's shape, structure and weight are selected, from the very beginning, to make the best use of the engine's weight and power output.

## **THE RIGHT SYSTEMS FOR THE LIFE THEY LEAD.**

As with the hull and engines, the 32's operating systems are developed by Hatteras for a life at sea.

And the Hatteras passion for reliability is plainly evident.

The 12V DC and 120V AC electrical systems, for instance, include distribution panels with magnetic circuit breakers; ground fault protection on AC outlets; transformer connected, fused shoreline inlets; stranded copper wire; heavy duty harnesses secured against vibration and chafing damage; color coding and numbering of wires for easy identification.
