54 EXTENDED DECKHOUSE  
MOTOR YACHT

**THE CASUAL  
LIFESTYLE FINDS A  
HOME AT SEA.**

*For many people, today's lifestyle is intimate and relaxed. A buffet dinner party can stimulate dialogues and midnight debates, and at dockside, it's always time for a sumptuous snack in the 54's "great room."*

*The contemporary lines are pure Hatteras — and so is the performance. Hatteras advancements in sound and vibration control provide an added level of comfort while underway. Real livability is what you're after, and engineering quality enables the 54ED to accommodate a variety of owner preferences.*

A great yacht begins with a great understanding of people. And the thing that Hatteras understands completely is that everybody's tastes are different, and your yacht should reflect those differences.

Which is why the four-stateroom, three-head design of the Hatteras 54 Extended Deckhouse Motor Yacht is unique. Inside, it's casual, relaxed, and completely new — as totally comforting as a beach house on a summer night. Outside, it's totally smart and rakish, as commanding in its appearance as it is in its performance. Here, with all its winning ways, is the compilation of decades of experience in designing and building large cruising yachts with the custom, personal touch.

The Hatteras modified-V hull provides a rugged foundation for the twin DD 8V-92TA's, rated at 720 SHP. Even beyond its quiet, smooth operation, its wide-beam deckhouse creates more of the live-aboard comfort you crave. The salon is wide, crafted in ash with a light, sophisticated look. Windows all around add to the spaciousness, and there's plenty of comfortable seating for entertaining or just spreading out. Because Hatteras knows that relaxed, intimate socializing is so much a part of your lifestyle, the on-deck galley is designed as an extension of the salon. In the 54ED, Hatteras engineers demonstrate the real value of computer-integrated design; Hatteras interior designers and woodworking craftsmen take it from there, together bringing the art of excellence to new heights.

*The wheelhouse is another example of Hatteras expertise. It features a totally new helm station design, easy reference gauges and added space for electronics. It's completely enclosable with a sliding door to the salon. There's a comfortable double riding seat and plenty of room for a captain's helm chair. With all the cabinets and drawers, everything is designed for maximum use of space. Centerline visibility directly aft means better handling, docking and maneuvering. From the wheelhouse a stainless-steel ladder leads to the bridge deck, where you'll find a fully-equipped helm station with two helm chairs, standard radar arch and U-shaped lounge seating with storage.*

We've given this Hatteras Motor Yacht a fabulous new twist. The unique angular layout of the 54ED makes the galley especially appealing (as a part of the one-great-room effect with the salon) and ultra-convenient.

The large raised serving counter can handle an informal buffet or become a conversation area. The galley is extraordinarily spacious, with large work surfaces, a contemporary color-coordinated sink and separate below-counter refrigerator and freezer units.

There's also a wall-mounted microwave/convection oven with an exhaust fan mounted over a four-burner cooktop, plus a disposal and a dishwasher. We made sure the cooking areas were out of the way for entertaining — but close enough for everyone to be in the thick of conversation. The overhead lighting is soft and generous. Contemporary counter-top surfaces surround you. And there's a wide variety of optional custom-decor features, including the mirrored counter fronts. Frankly, you just might not want to spend time anywhere else again!

*This main-deck floor plan gives you a feeling for the livability of this motor yacht: the large amount of conversational seating in the salon and the private wheelhouse forward with a private stairway to guest quarters.*

*The entertainment center is tucked into the port side on an angle, for comfortable viewing of the large-screen TV from the salon or galley. A fully-integrated remote control operates the TV, VCR and AM/FM cassette stereo component system. A wet bar with ice maker, second refrigerator, plus large glass and bottle storage are conveniently located below the counter.*

*The masterful layout of the 54ED provides for an exceptionally large food preparation area without being isolated from the conversation in the salon. The "one great room" effect between areas allows your guests to join you in the galley while you have the room to prepare your gourmet treats!*

*Everything about the master suite is comfortable and contemporary — which can be said of the whole 54ED. One advantage of this ingenious approach, with so many features on an angle, is that you have an incredible sense of space.*

*A comfortable sun lounge is built into the foredeck.*

*The Hatteras imprint of thoughtfulness is found throughout the V.I.P. suite. You can have a wide range of designer fabrics and colors, and the option of custom decors such as mirrored walls that surround a large portlight. Standard equipment includes indirect lighting, cedar-lined closets, and full bed linens.*

*The starboard guest state-room is the most compact, but features such guest comforts as full-sized upper and lower berths, dresser, cedar-lined hanging locker and door mirror. (Kids could find room like this heaven at sea!)*

On many other motor yachts, living quarters such as this V.I.P. suite would certainly qualify as the master stateroom. It abounds in space. Space for clothing and bulk storage, with large cedar-lined closets, built-in nightstands, stereo and dressers; space for people, with a walkaround queen bed and built-in TV area. Hatteras makes sure your guests will enjoy real privacy along with real luxury. As you look over these pages, you begin to see all the comfort, the fun, the excitement, and the real pleasure the 54ED can offer you and your family.

The moment is right. The new Hatteras 54ED is right, for you and your family. Call your Hatteras dealer for an appointment with the good life!

*A curved, open stairwell forward from the wheelhouse becomes an atrium for the guest staterooms, day head and washer/dryer closet.*

*Because the forward head has two entry doors, it functions as a private head with shower for the bow stateroom. Or, from the atrium companionway, it can also be used as a day head.*

*Your guests will enjoy the spaciousness and privacy of the V.I.P. stateroom with its own private head — complete with a man-sized stall shower. Every detail has been skillfully incorporated for your guests' comfort.*

*The comforting thing about being aboard this Hatteras is that nobody in your entourage ever feels slighted. The bow stateroom, with another queen berth, displays the same understanding of ergonomics, the same interior design finesse and the same craftsmanship as the master stateroom and the V.I.P. suite.*

Nobody knows how to build live-aboard luxury into a motor yacht like the hands at Hatteras. And when you add the technological advantages of computer-aided design and manufacturing to their decades of experience at this sort of thing, you get a magnificently comfortable home at sea for your family and guests. A private, curved stairwell from the salon leads to the nearly 17' wide master stateroom. Here you can really stretch out and relax — it's immense! There's the full complement of storage space (among our highest design priorities throughout the 54ED), including a full wall of drawers with a TV recessed above, storage under the bed and an oversized cedar-lined hanging locker. The

angled queen bed arrangement creates more floor space and comfortable access to all the drawers and storage. And, of course, there are the Hatteras traditions: fine wood-working and furniture craftsmanship; attention to personal comforts, with plenty of headroom and quiet, well-balanced air conditioning; a creative flair for interior design details, to make sure your yacht is particularly suited to your individual tastes; and solid, strong construction. Privacy, luxury, livability . . . they await you aboard your 54ED.

*The below-decks floor plan shows the advantages of innovative Hatteras design. Three of the four staterooms have walkaround queen beds. The full-beam engine room is a true walk-in, stand-up, go-to-work space designed for accessibility and serviceability. (Standard features include the 12-point Hatteras Systems Monitor, 20kw generator in a separate forward compartment, and of course the famous Hatteras electrical and mechanical systems.)*

*The private master head is the kind of bathroom you never thought a yacht this size could offer. The whirlpool tub with shower is deep and generously sized. You'll find a molded one-piece countertop design and a full mirrored vanity with lighting. And there's an abundance of storage for supplies and linens.*
