

**INTRODUCING  
A NEW  
OPPORTUNITY  
TO TAKE UNFAIR  
ADVANTAGE**

## THE HATTERAS 58 CONVERTIBLE

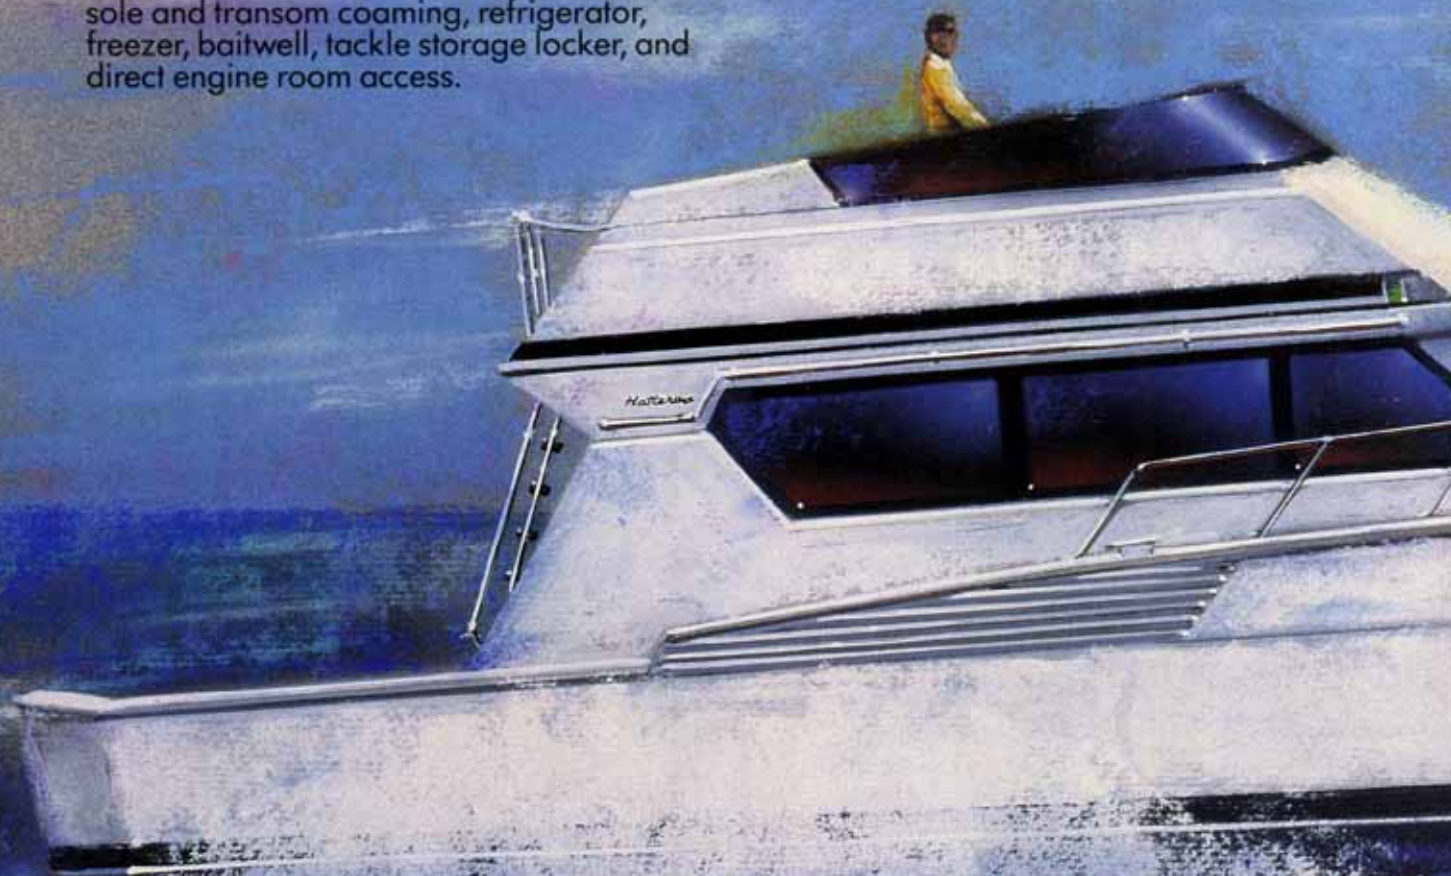

For 30 years, Hatteras has been building the most popular sportfishing machines in the world. And the culmination of everything we've learned, everything we've dreamed, is here in the 58 Convertible. This rugged and comfortable new sportfisherman, with a new modified-V hull, was developed by the Hatteras design team, with a style, feel, and flair that's completely contemporary.

The flybridge provides a cruising station forward and a fishing station aft and twin L-shaped lounges. An enclosed flybridge with air conditioning is optional.

The cockpit features our latest thinking in what makes a cockpit work: fishboxes in the sole and transom coaming, refrigerator, freezer, baitwell, tackle storage locker, and direct engine room access.

The engine room is spacious and well thought out. Whether you choose the D.D. 12V-92TA's or optional D.D. 16V-92TA's, good access to all equipment is assured.

Throughout, the spaciousness found inside the Hatteras 58C is accentuated with the light-tone finish of the woods and counter surfaces. Here Hatteras designers apply their craft in magnificent detail. Like the soft radius corners and refined drawer details. Like the abundance of drawer storage and full length hanging lockers, a washer/dryer, and the three full-size shower stalls.

If space is a premium, then the master stateroom and the VIP guest stateroom are truly premium space. Each provide walk-around queen-size berths, full size lockers and access to adjoining heads.

A third stateroom for guests or crew offers its own private head with stall shower and large proportioned over and under berths.

A large galley with dinette and comfortable salon offer luxurious comfort for the entire crew.

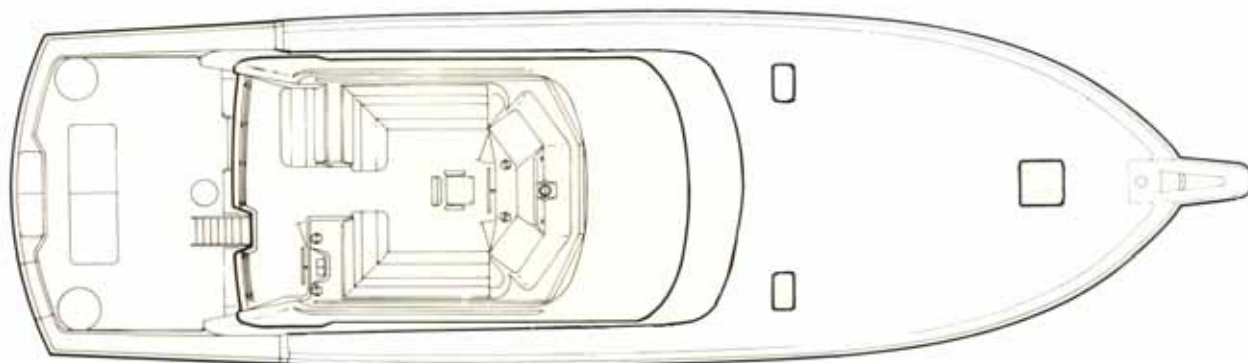

More features for sportfishing and more sportfishing comfort than most boats offer in options. Here is the Hatteras 58 Convertible.
