**61 Cockpit Motor Yacht**

## All the room of a wide beam motor yacht plus . . . the advantages of a cockpit.

A great many yachtsmen around the world call their Hatteras yachts something very special: home.

Our 61 Cockpit Motor Yacht is, as is every Hatteras motor yacht, built to be worthy of the honor.

It's a boat that welcomes you aboard, makes you comfortable, puts you at ease.

With a salon of magnificent proportions, large windows and fine paneling of rare imported wood.

With a galley/dinette sized and equipped to be a source of joy to cooks who know what they want.

With well-planned staterooms and heads.

With the convenience of a cockpit. For boarding at low docks, dinghy handling, fishing, swimming and convenient line handling.

And a bridge deck of veranda proportions with fully instrumented helm at the available flybridge station forward.

Of course, our 61 is also built to reflect our pride in the Hatteras name. The seakeeping qualities, mechanical and electrical systems, design and craftsmanship . . . all reflect the 20 year leadership experience of Hatteras Yachts.

Salon is separated from but open to the pilot house. This is accomplished by a combination Divider/Cruising Seat which also holds AM/FM Stereo receiver and additional storage lockers.

The salon's spaciousness expands your furnishing arrangement and decorating possibilities. Shown here is a large conversation area, with plenty of room for everyone. However, the salon can be beautifully arranged for several small grouping areas.

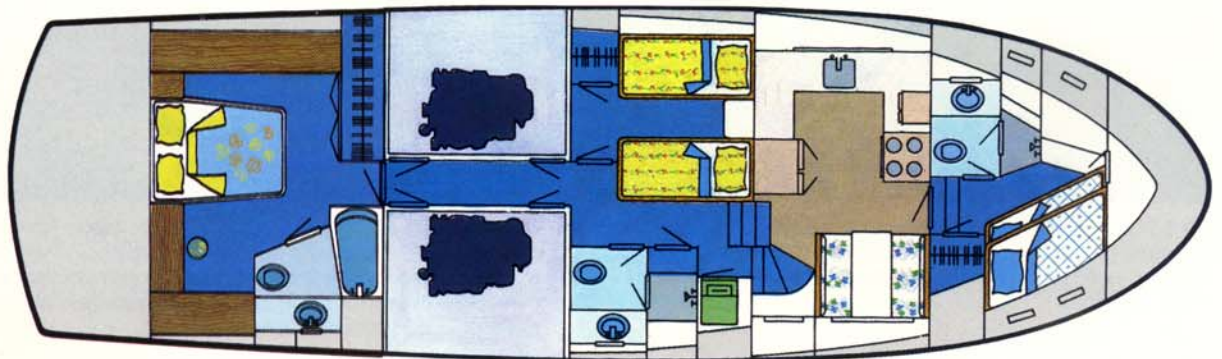

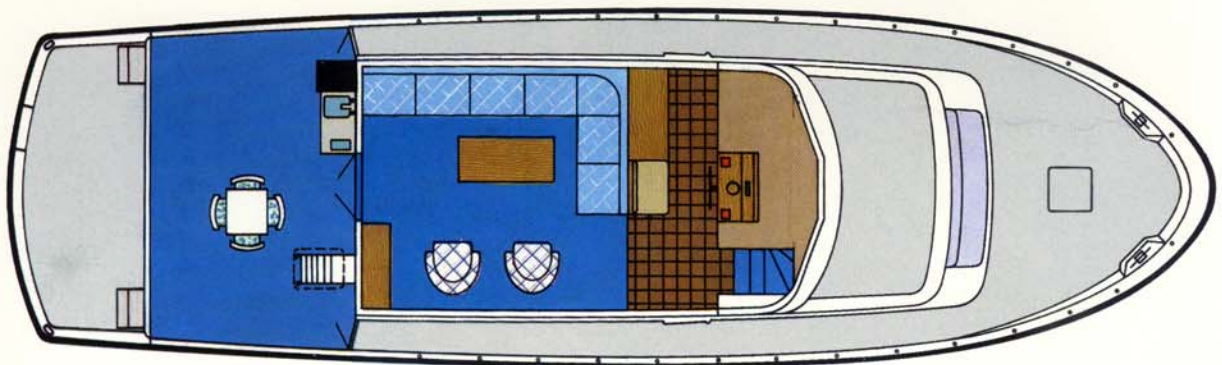

Pilot house with cruising seat for two. Here are full instrumentation, electric panels, loads of chart flat space. Plus room for electronics.

Double doors lead to the aft deck, a convenient, versatile, semi-enclosed area. It's a breakfast room, cocktail patio, whatever you wish. A wet bar with icemaker is included.

Cockpit with transom gate for fishing and easy stern boarding. Lazarett storage through hatches in the fiberglass sole keeps fenders and lines from being underfoot.

Floor plan shows standard queen berth arrangement.

Condominium-sized galley is exceptionally spacious. Liberal counter space and full-sized appliances enhance that roomy feeling. For those who take pleasure in preparing and serving food, this is a galley to fall in love with.

The 61 Cockpit Motor Yacht is designed for cruising, entertaining or living aboard. And she has more living room, more storage than you'd expect of a 61 foot yacht.

One reason for that is her 18 foot 2 inch beam. A dimension clearly evident in the generously proportioned main salon and aft deck.

A second reason is the efficient use of space you've come to expect from Hatteras. From extra stateroom lockers and dressers to a hatch in the galley's counter-top which turns a hard-to-reach corner into an easy access storage bin.

Dinette, thoughtfully placed adjacent to galley. Seats four adults in upholstered comfort. Hideaway storage.

In the master stateroom, optional twin berth arrangement demonstrates the benefits of a broad beam—freeing space for a convenient vanity and generous storage lockers.

Built-in chest of drawers and 4-door wide wardrobe closet. To the right, companionway forward also isolates master's area for greater privacy.

Master head luxury — tub with shower. Plenty of linen storage and space for toiletries.

Belowdeck in the 61 Cockpit Motor Yacht, the master stateroom has as its focal point a queen berth. In addition to providing sumptuous comfort, it allows easy passage in the stateroom and easy access to the voluminous drawer and hanging locker storage.

An optional twin berth arrangement is available if you choose.

Taking the companionway forward, you pass the twin stand-up-height engine rooms that provide easy

access to the G.M. 12V-71TI engines. The companionway then accesses the guest stateroom and head and passes a convenient laundry and linen storage area.

Forward of the galley is a spacious bow stateroom with berths and private head.

This is a yacht you could call home. Your Hatteras dealer will be pleased to expand upon the details of the 61.

And when he does, we believe you'll soon be moving into this roomy Hatteras 61 Cockpit Motor Yacht.

**Upper left:**

Guest stateroom with twin berths; well-planned storage above and below; and a convenient hanging locker.

**Lower left:**

Bow stateroom over and under berths, roomy dresser and full-length hanging locker. Forward are access doors to rope locker.

**Lower center:**

Bow head has loads of storage for linens, towels and

sundries. There's also a generous stall shower with exhaust fan and opening portlight.

**Upper right:**

Guest head greets you with comfortable space for your guests and their needed storage items. Note the large stall shower.

**Lower right:**

Space created by the 61's broad beam is used in thoughtful ways. Like this substantial linen locker placed next to an available washer/dryer.
