63 Cockpit Motor Yacht

The Hatteras 63 Cockpit Motor Yacht: When nothing less than more Hatteras will do.

Some people define their success by what they've achieved in the world of business, or science, or the arts. For others, it's what they've achieved in their personal lives: the satisfaction that comes from a quality of life far beyond the commonplace. And for still others, success must mean *both*, in equal terms.

For this last group, Hatteras introduces what may well be the ultimate reward. The motor yacht that says you've attained your dreams without sacrificing your own brand of individual achievement.

The Hatteras 63 Cockpit Motor Yacht.

It's a cockpit motor yacht that defies categorization by categorically exceeding all previous standards.

From bow to stern, Hatteras has invoked the best of all worlds, the classic lines, fresh new interior styling throughout, and the regal accommodations that are, undeniably, Hatteras. For the 63 Cockpit Motor Yacht is designed solely for the yachtsman who wants exceptionally *livable* quarters coupled with the Hatteras legacy of exceptional boat-building.

Built on a fiberglass Hatteras Hargrave hull, double-chined with an 18' 2" beam, it's at once maneuverable, powerful and graceful, putting the ocean at your command with an ease that would be remarkable. If this were anything other than a Hatteras.

All the extras, brought to you in extraordinarily fresh style.

With its dependably solid construction, refined styling and state-of-the-yacht engineering, the 63 Cockpit Motor Yacht reflects well on the Hatteras tradition of excellence. And in so doing, reflects well on you.

The 63 Cockpit Motor Yacht is intended, first and foremost, for entertaining and cruising in the grand manner. But it is the manner in which this is accomplished that is truly outstanding.

Through and through, you'll find the extras that make this yacht worthy of the Hatteras name, true to the Hatteras experience. Extra room. Extra comforts. Extraordinary attention paid to the smallest (and largest) details.

The contemporary look is enhanced throughout by the use of molded, rounded natural wood corners on dominant bulkheads, curved moldings on the cabinets, and surface colors in lighter shades and tones.

The deckhouse alone measures 20' x 12'. Large, tinted windows offer panoramic views.

Through the aft salon door you'll find a spacious, semi-enclosed aft deck, protected by a hardtop, wing doors, and sliding side windows. A fiberglass lounge seat and a wet bar with an ice-maker and storage space for glasses and bottles gives you additional room for

entertaining. A few easy steps away is the ladder for the optional fiberglass flybridge, with plenty of room for you and your friends.

Now take a moment. Peruse the enormous salon and its 240 square feet of pure, pleasing living space. The intelligent design of the salon aft bulkhead, with a single door on the starboard side and a large window to port, allows for a wide range of home seating arrangements. Even the air-conditioning is built in such a way that your comfort and decorating options are left wide open. At Hatteras, every detail that can improve the quality of your life is taken into account.

The salon is separated from the full control station by an innovative room divider/riding seat with a salon-facing, concealed entertainment cabinet. The cabinet is but one example of the fine craftsmanship that is part of the Hatteras character. Within is an AM/FM stereo receiver, and there's ample room for a TV and VCR. The dual-riding seat is upholstered in plush leather-like vinyl, highly functional and impressively comfortable.

A few steps down from the salon level, the aft cockpit is a bold addition, large enough to provide your group with a sense of freedom and access to the water for swimming, for easy use of a dinghy, or for European-style docking.

If you want to be close to the water, this is as close to perfect as you're going to get.

The aft cockpit comes with a non-skid sole, lazarette hatch (which means extra storage), and a standard transom gate. Though to call anything about this cockpit yacht standard is a gross understatement.

Hatteras believes life aboard a yacht must be completely satisfying. Whether you're cruising the open sea or entertaining dockside, this Hatteras is built with one purpose and one only. To allow you to enjoy life more completely than ever before.

What you see above isn't nearly all you get.

Below decks, the Hatteras 63 takes the meaning of luxury one step further.

The forward and aft areas are separated by a companionway with built-in linen storage and a hanging locker that's big enough for a washer/dryer.

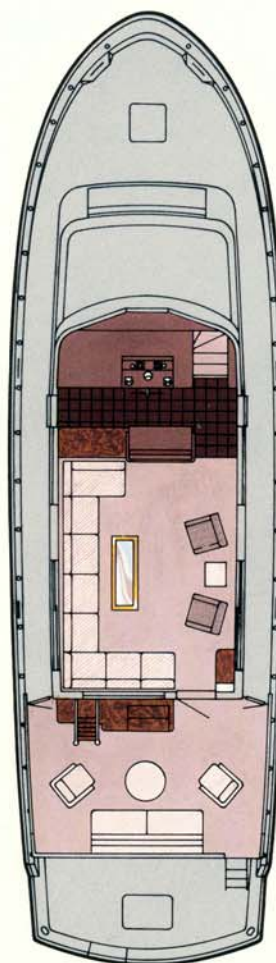

The galley? Tastefully decorated and cheery, host to all the amenities (and necessities) a culinary expert could desire. You'll find laminated counter tops, a side-by-side refrigerator/freezer with ice-maker, a four-burner range with eye-level oven, dishwasher, garbage disposal, and extra space in case you want to install a built-in microwave. Nearby, a dinette for four with upholstered seating and storage underneath.

The cabinets and dinette table in the galley are covered with new warmly-colored laminate for a soft, clean look. Attractive teak keeper-rails line the counter

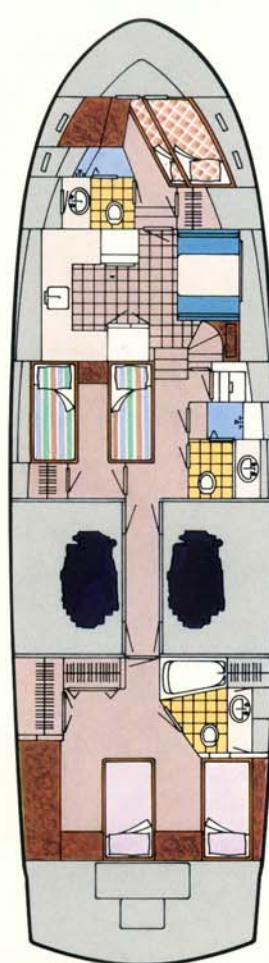

The Master Stateroom is as practical as it is luxurious, with large built-in dressers and walk-in cedar-lined wardrobe closet. As long as you live aboard, there's room for everything...except improvement.

Upper deck arrangement with 240-square-foot salon and aft deck shown.

Floor plan with optional arrangement of twin berth/ Master Stateroom.

Dinette is conveniently adjacent to the galley. It's designed for four, and has comfortable upholstered seating with storage underneath.

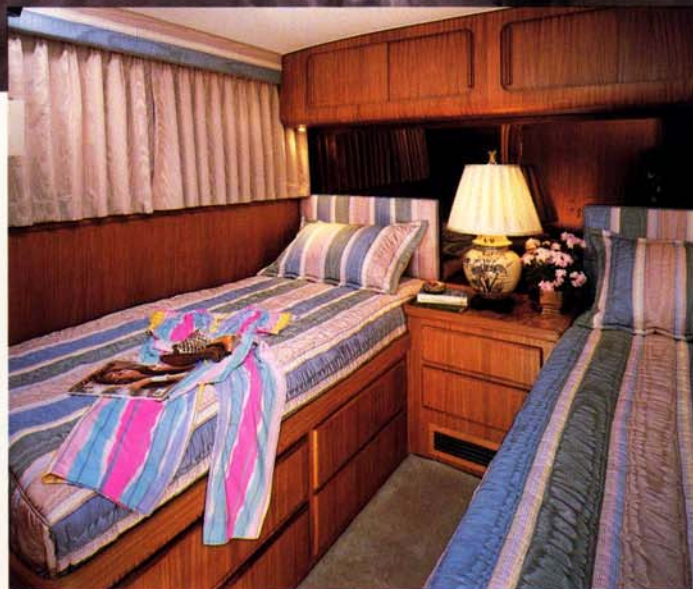

The galley is bright and cheerful...truly a live-aboard kitchen. Vinyl flooring, high-pressure laminate countertops warmly colored make meal preparation a comforting experience. Full-size refrigerator/freezer with ice-maker, garbage disposal, dishwasher and 4-burner range with oven are all standard.

Some say that privacy is the ultimate reward, and the Master Stateroom says it eloquently. Skilled woodworking craftsmanship combines with especially tasteful design: the rounded corners of the cabinetry, the amount of living room, the built-in corner lounge, the queen-size berth all say Hatteras quietly and elegantly.

The Master Head is adjacent to the Master Stateroom, and comes with Hatteras-style full-size tub and shower, lavatory, mirrored medicine cabinet and several linen storage areas.

Guest Stateroom is so comfortable, you'll never have a shortage of company. Look at the storage under the twin berths! There's overhead storage as well, and a hanging locker and nightstand. Stereo speakers and volume control add a finishing touch of extraordinary hospitality.

Bow Stateroom has plenty of storage under the berths, a smart nightstand with storage, and access to an air-conditioned private head.

Aft Deck is truly an outdoor extension of the salon, for making the most of the Hatteras experience. It comes complete with wet bar and ice-maker, and sliding wing board windows. Yes, this is the life.

tops, while smartly styled drawer pulls accentuate the contemporary styling.

Aft, the sumptuous master stateroom includes a queen bed, dressers so large both "his" and "her" wardrobes can fit inside, twin nightstands, and a walk-in cedar lined closet. That's Hatteras for you.

And because privacy is a priority, the master stateroom is separated from the forward guest accommodations by the engine room, and for additional privacy it features a built-in upholstered lounge for relaxing or reading. Or just plain indulging in solitude.

Your private head is totally air-conditioned, with a tub and shower and several linen storage areas.

The bow stateroom and midship guest stateroom each come with a nightstand with storage and a full hanging locker. Each has access to an air-conditioned

head, and each head has a full stand-up shower.

The midship guest stateroom comes with long twin berths with storage underneath.

The bow stateroom features upper and lower berths to starboard. (Be forewarned: we've made these staterooms so warm and inviting your guests may invite themselves back again and again.)

From concept to completion...completely Hatteras.

The 63 Cockpit Motor Yacht shares those attributes that have made Hatteras renowned and recognized the world over: impeccable design and incomparable engineering. At Hatteras, nothing less than the best will ever do. That's why Hatteras builds its own systems monitor. And that's why the Hatteras mechanical and electrical systems are so well conceived, they're almost a legend in the industry.

We build Hatteras yachts to provide you, your family and your guests with more of what you deserve most: respect, pride of ownership, a strong sense of accomplishment. From the moment you step aboard, you'll know you've made one of the wisest of investments.

We wouldn't have it any other way. We want every moment aboard a Hatteras to be time well spent. Because it's worth it to you to get more out of every moment of your life. That, in short, is the Hatteras achievement we invite you to share.

Your Hatteras dealer will welcome the opportunity to take you on a personal tour of the Hatteras 63 Cockpit Motor Yacht.

For some people, any definition of their personal yacht must begin with a roomy cockpit. Hatteras understands...and built one you'll enjoy day in and day out.

Salon facing aft — your living room at sea greets you warmly with Hatteras craftsmanship every inch of the way. Fresh, refined and very, very spacious, to let you enjoy your private world to the fullest. The aft deck is just a door away.

Salon facing forward. The elegance never seems to end. The combination room divider and riding seat includes your entertainment center: AM/FM stereo receiver and extra storage space, all standard. You can even add your own television and other entertainment equipment.
