

Hatteras

70 MOTOR YACHT

*Excellence
On A Grand Scale:*

70 Motor Yacht

*Before the
Hatteras 70 MY
was a yacht, it was
a vision.*

Chances are, when you bought your first boat, you already knew pretty much what you wanted your second boat to be like. And, chances are, by the time you bought your first motor yacht, you had a pretty good idea of which yacht would be your ultimate; which would be your own personal triumph at sea.

And, chances are, the yacht you are about to explore in these pages embraces that vision of yours completely.

One reviewer called the Hatteras 70 Motor Yacht "the most luxurious entry in Hatteras' new generation of yachts."

You begin to imagine the magnificent life that awaits you as you view the sculptured profile and spacious foredeck rising up to the bridge-deck. This is an architectural statement created for both exquisite styling and seamanship.

The 70 Motor Yacht is available with side decks or with full beam salon.

That description is true, but not really complete enough. Because the 70 MY is so very much more . . . in world-class contemporary design, responsive performance, time-honored craftsmanship, and engineering excellence.

The Hatteras 70 Motor Yacht is, in the final analysis, Hatteras' own vision of what a motor yacht of this class could be.

The unique below-deck layout with up to five staterooms and five heads. The master stateroom is masterful in scale and scope, with a deluxe whirlpool bath among its substantial attributes. The amidship V.I.P. guest suite, with its queen bed and large private bath, rivals master staterooms in other, less impressive yachts.

70 Motor Yacht

The salon looking aft.
An extraordinarily open
and spacious feeling is
achieved by the huge,
sweeping aft window.

Among the most important — and most impressive — qualities of the Hatteras 70 MY is the potential it offers for you to create a look and feeling of your own, and the flexibility to work with the Hatteras Yacht fashion team for an environment that's exclusively yours.

Indeed, every Hatteras Yacht is built with our traditional virtues of uncompromising

craftsmanship and superior engineering. Yet the 70 Motor Yacht is so new and special, it's eye opening . . . with possibilities and attention to details.

The grand salon of the Hatteras 70 Motor Yacht affords you the luxury of expressing your personal lifestyle and sense of design.

The setting for a large gathering of your friends, or for comfortable conversations with your family . . . it can be designed expressly for you and your lifestyle.

A complete entertainment center and wet bar with storage areas are concealed in the forward salon bulkhead. Included are a large-screen stereo color television with VCR, and AM/FM stereo

receiver with cassette tape deck — all operated by a single hand-held remote control. Reflected in the mirror of the bar alcove are hanging glass storage racks; and below, a convenient ice-maker and space for additional storage.

70 Motor Yacht

The galley is bright and spacious, with plenty of lighting, lots of storage and generous countertop workspace.

Welcome to the galley and dinette. If you never want to leave, not a soul would ever blame you, for the Hatteras flair for comfort and convenience makes this a warm and wonderful place to gather with friends.

The galley is large, bright, and well-equipped for any style or size of meal preparation. Standard features include a dishwasher, four-burner cooktop and a microwave/convection oven. The refrigerator/freezer with ice maker is convenient to the starboard dinette area.

A breakfast, lunch, or dinner table, and a game table for the kids while you're using the salon. The dinette gives you that extra space that means so much when you're at sea.

In the pilothouse, great thought (and experience) has gone into the design of consoles for controls and electronics.

Forward of the galley is the enclosed pilot house. Handsomely finished with wood paneling and a teak parquet sole, the helm station is designed for full and comfortable control of the Hatteras 70 Motor Yacht, with

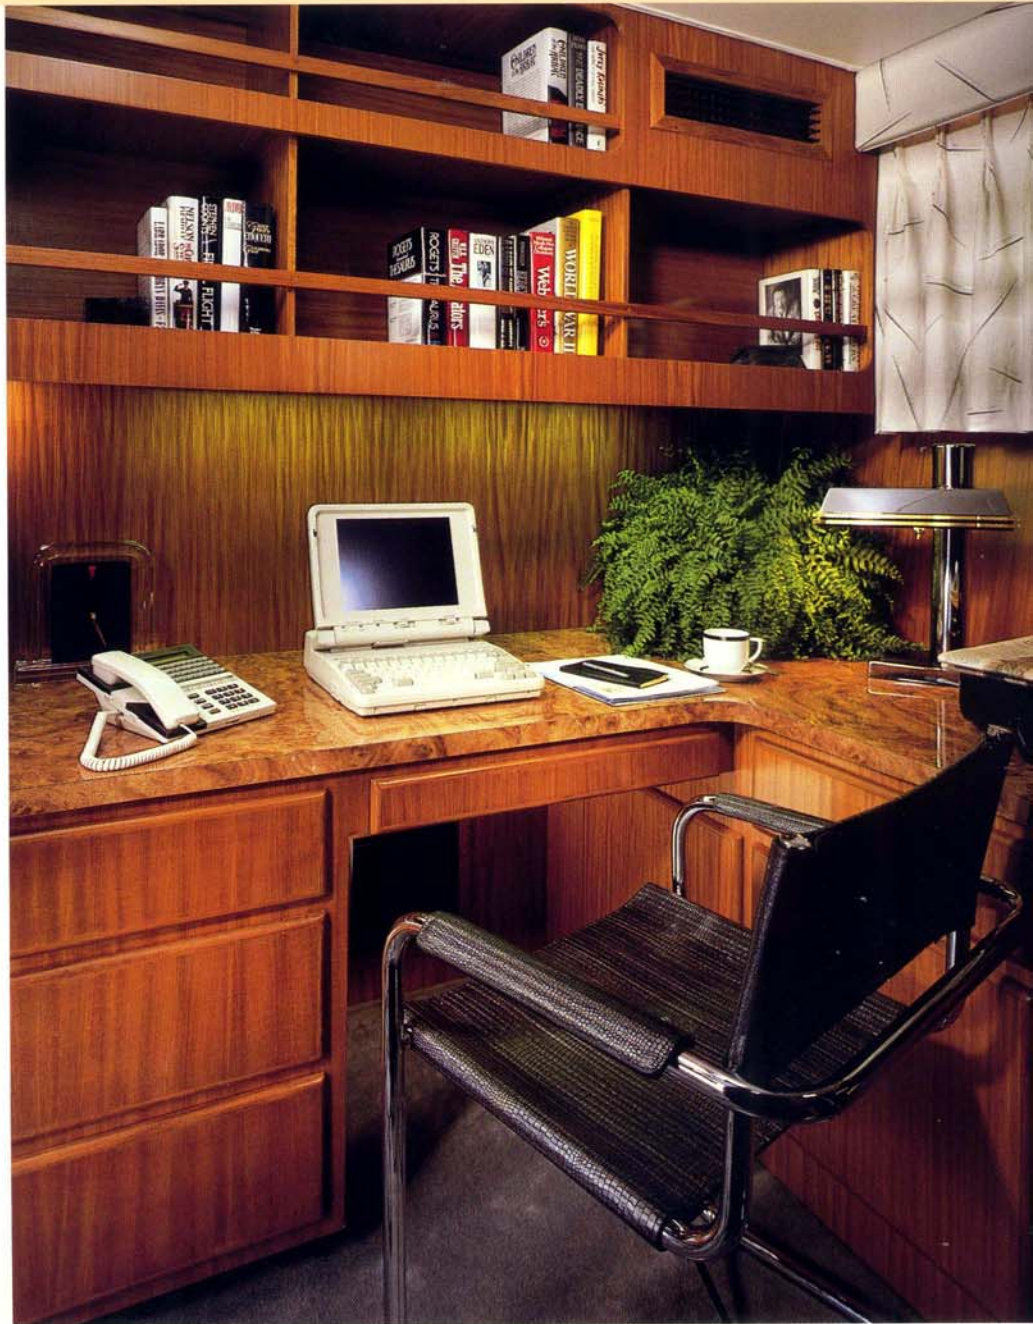

everything right at the captain's fingertips.

From the pilot house, there is access to the bridgedeck and to the forward staterooms below.

70 Motor Yacht

The study in this master suite, right, provides a built-in desk, credenza, and bookshelves, with additional space for necessary equipment such as a computer.

(Below: Optional fifth stateroom with twin berths.)

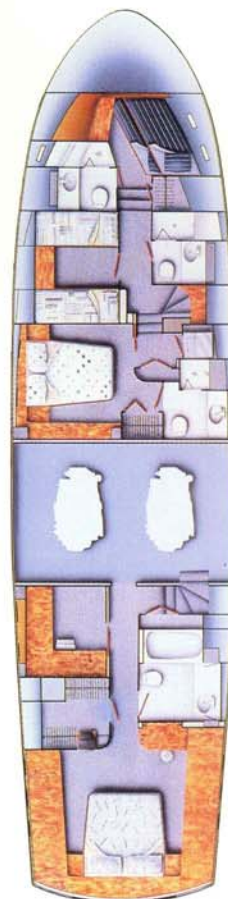

Descending the lighted stairway from the salon brings you to the serene privacy of your own quarters. The master stateroom is majestic, and at your discretion, the office area could be designed as a fifth stateroom.

The master stateroom itself is a masterpiece of luxury. It includes the deep-down comfort of a plush king-size tapered berth, a carefully crafted built-in vanity with a lighted mirror, distinctive his-and-her dressers, and matching nightstands. The standard equipment in the master stateroom includes a built-in color television with remote control

You'd be hard-pressed to find a second home as luxurious and comforting as this. The master stateroom has a walk-around king-size bed (left); an elaborate private head (below left); and the incredible dressing area shown below, right.

unit, as well as a stereo sound system. You'll also be delighted with the large, cedar-lined walk-in closet and dressing room.

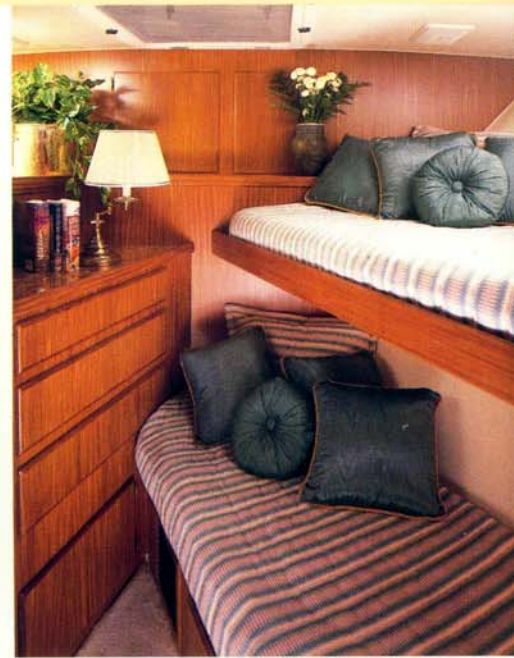

The master head features a full-size whirlpool bath and shower, as well as a solid, molded countertop and sink.

Three forward staterooms are accessible from the curved stairs from the pilot house. While each is exceptionally comfortable,

the amidship V.I.P. guest stateroom is (to those who don't know Hatteras) surprisingly luxurious. It offers a roomy queen-size tapered berth, a large cedar-lined hanging closet, and a built-in dresser with lighted mirror. The head, with its private entrance, is well-designed, with a large stall shower.

70 Motor Yacht

The forward guest stateroom (top left) and the bow crew stateroom (right) each feature a cedar-lined hanging locker. The V.I.P. suite (below, left and right) is proof that nothing here is less than first class.

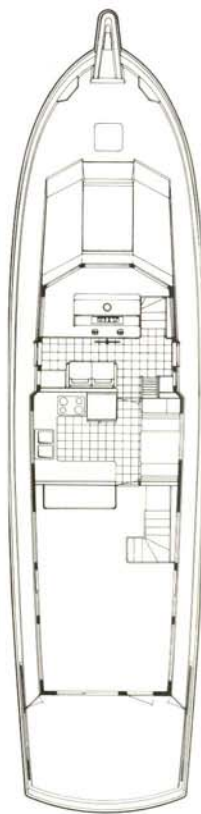

Each of the remaining forward staterooms can sleep two, and each features full head with shower.

Whether standard or extensively custom designed for your own personal needs, the Hatteras 70 Motor Yacht reflects Hatteras' insistence on excellence; in the matched veneer of traditional mid-tone or the optional, more contemporary

light-finish natural wood; in the look and texture of the color-coordinated fabrics, and design of the furnishings; in the nuance of detail that makes Hatteras a celebrated name on the waters of the world.

The 70 MY is also a manifestation of proven Hatteras attributes. The proven modified V-hull, with solid fiberglass bottom and cored topsides for

You can specify walk-around side decks, with wing doors, which facilitate fore-to-aft crew access without disturbing the activities in the salon. The look is sensational and the optional arrangement includes a larger, covered aft-deck for outdoor relaxing and a convenient "stern-to" dock access point off the salon.

ruggedness without compromising open sea performance. Extensive standard equipment and renowned Hatteras electrical and mechanical systems throughout, envied for their commitment to reliability. Power is provided by the standard twin D.D. 12V-71TA diesels to cruise comfortably and respond easily. And all around you, reflections of the extra engi-

neering that provides a quiet, smooth environment far superior to other builders' efforts.

Everywhere you look, the Hatteras 70 Motor Yacht embraces your vision of the ultimate yacht.

Suffice to say, if you've ever yearned to create a world of your own at sea, the way to do it is the Hatteras 70 Motor Yacht.
